(The school year of 1912-13 will begin on Tuesday, September 3, 1912.)

*The date of this examination may be changed. For date of special examinations see page 32.

Historical Extracts

FROM THE SECOND CATALOGUE OF THE MILLERSVILLE NORMAL SCHOOL ISSUED
IN 1856.

"This institution is emphatically the outgrowth of the present increased interest in education, especially in education by common schools.

"During the summer of 1854, a number of citizens of Millersville and its vicinity, desiring a more liberal education than that furnished by the common schools of the neighborhood, erected a building for the purpose of establishing a school, which they proposed to denominate the *Millersville Academy*.

"In the spring of 1855, learning that the County Superintendent desired a suitable building in which to hold, for the space of three months, a Teachers' Institute, the trustees offered this gratuitously for that purpose, promising to supply any want of boarding accommodations by private hospitality. The Institute opened on the 17th of April, and during the term there was an attendance of 135 regular students. The results were of such a satisfactory nature, and pointed so clearly to a want of permanent institutions of like character, that the trustees resolved to treble the size of their buildings and establish a regular Normal School. By the 5th of November the new buildings were ready for reception of students. The experiment was successful, and the number of students proved that the projectors of the school had not miscalculated its necessity."—*Catalogue of 1855-'56*.

"The Normal School law was the product of this school. Millersville was the parent of this law, and not its child, as popular belief has it."—*From an address by A. M. Frantz, Esq., on the fiftieth anniversary of the recognition of the this Normal School by the State, December, 2, 1909.*

FROM DR. J. P. WICKERSHAM'S HISTORY OF EDUCATION IN PENNSYLVANIA.

"Soon after the passage of the Normal School law of 1857, preparations were begun at Millersville to bring the school up to its requirements. More ground was needed, additional buildings had to be erected, and it was necessary to spend large sums in furniture and equipments. * * * The institution was at last ready for inspection, and on the second day of December, 1859, amid great rejoicing, it became the First State Normal School in Pennsylvania and the model after which all the others are patterned. * * * The future prosperity of the school seems assured, and as to its past record, it may well claim to have done more to develop the science of education and to introduce improved methods of teaching than any other educational institution in the State."—*History of Education in Pennsylvania*.

A FEW STATISTICS FROM THE REPORT OF THE SUPERINTENDENT OF PUBLIC
INSTRUCTION FOR 1909.

Total number of students, 42,121; total number of graduates, 3,028; total number of volumes in libraries, 16,927; total value of property, \$655,920.63; value of apparatus, \$6,200; value of musical instruments, \$6,800; value of furniture, \$61,100.

Household—ANDREW M. FRANTZ, Chairman; HENRY HOUCK, ROLAND H. BRUBAKER.

School Furniture and Supplies—A. F. HOSTETTER, Chairman; CHARLES I. LANDIS, JOHN G. HOMSHER.

Library and Apparatus—E. O. LYTE, Chairman; AARON W. SNADER, ANDREW F. FRANTZ.

Finance—P. W. HIESTAND, Chairman; JOHN H. LANDIS, H. EDGAR SHERTZ.

General School Officers and Assistants

1910-1911

ELIPHALET ORAM LYTE,
Principal.

J. W. LANSINGER,
Business Manager.

H. JUSTIN RODDY,
Preceptor.

MISS ANNA LYLE,
Preceptress.

MISS GRACE SEYFERT,
Office Secretary.

H. E. BAUGHEY,
Superintendent of Grounds and Buildings and Steward.

H. C. METZGER,
Janitor and Postmaster.

MRS. HARRIET MOOR,
Housekeeper.

MISS ANNA DIMM,
Matron in Ladies' Building.

MRS. MARY D. WILLIAMS,
Matron in Gentlemen's Building.

Board of Instructors

1910-1911

ELIPHALET ORAM LYTE, A. M., PH. D.,

PRINCIPAL,

Theory and Practice of Teaching.

ANDREW R. BYERLY, A. M., PH., D.,*

Latin and Greek.

GEORGE W. HULL, A. M., PH. D.,

Mathematics and Methods.

JOHN W. LANSINGER, M. S.,

Registrar.

H. JUSTIN RODDY, M. S., PH. D.,

Natural Science and Methods.

P. MONROE HARBOLD, M. PD., A. M.,

Superintendent of the Model School.

WILLIAM R. STRAUGHN, A. B., PH. D.,

Rhetoric, Literature and Methods.

CHARLES D. COOPER, M. S.,

Physical Training for Gentlemen, Physiology and Methods.

J. ALLEN HUNTER, A. M., PH. D.,

Psychology, Latin, Greek and Methods.

JOHN M. GROVE, A. M.,

Natural Science and Methods.

LESTER R. UHRICH,

Bookkeeping, Penmanship and Methods.

LOUIS McJ. LYTE, PH. B.,

Geography.

F. NEFF STROUP,

Mathematics and Methods.

B. F. WINKLEBECK, A. M.,

Latin and Methods.

ALDUS E. KEGERREIS,

Mathematics and Methods.

*Doctor Byerly died January 7, 1911. Dr. C. H. Gordinier has been elected head of the department of Latin and Greek.

Board of Instructors—Continued

ALVIN C. WERTSCH,
English Branches.

R. K. BUEHRLE, PH. D.,
Non-Resident Lecturer on Graded Schools.

MISS ANNA LYLE, M. E.,
History, Civil Government and Methods.

MISS SARAH H. GILBERT, M. S.,
English Grammar and Methods.

MISS AMANDA LANDES, M. E.,
Reading, Elocution and Methods.

MISS CARRIE E. MYERS, M. E.,
Assistant Superintendent of the Model School.

MISS LILIAN GHERST, M. Pd.,
English Branches.

MISS EDITH DAVIS POTTER, B. S.,
Piano and Organ and Methods.

MISS LUCY K. PEERY, A. B.,
Voice Culture and Methods.

MISS ELIZABETH A. GOWANS,
Drawing and Methods.

MISS BEULAH MUMAUGH,
German and French.

MISS HENRIETTA E. ADAMS,
Physical Training for Ladies.

MISS SOPHIA H. NOBLE,
Manual Training and Methods.

MISS ————,
Kindergarten and Assistant in Primary Grades.

MISS NAOMI BAUSMAN,
Critic Teacher, Model School.

MISS EMMA H. STEPHENS,
Assistant in Gymnasium.

MISS LETITIA B. CLARK, A. B.,
Latin and History.

Board of Instructors—Continued

MISS ETHELWYN GASTON, A. B.,
Librarian.

MISS ELINOR G. BROWN, A. B.,
English and History.

MISS MARGIE A. WEBB,
English Branches.

MISS ELLA K. GLATFELTER,
English Branches.

MISS KATHRYN B. LEFEVER,
Reading.

State Board of Examiners

1911

C. D. KOCH, PH. D.,
Representing State Superintendent of Public Instruction.

E. L. KEMP, PH. D.,
Principal State Normal School, E. Stroudsburg, Pa.

PROF. J. E. R. KILLGORE,
Superintendent of Schools, Sullivan County.

PROF. A. S. MARTIN,
Superintendent of Schools, Norristown.

PROF. JOHN W. SNOKE,
Superintendent of Schools, Lebanon County.

PROF. J. J. KOEHLER,
Superintenednt of Schools, Wayne County.

PROF. T. LATIMER BROOKS,
Superintendent of Schools, Lewistown.

PROF. W. N. EHRHART,
Superintendent of Schools, Mahanoy City.

ELIPHALET ORAM LYTE,
Principal First Pennsylvania State Normal School.

Nature of a Normal School

A Technical School

A NORMAL SCHOOL is a school established for the academic and professional preparation of teachers. It differs from academies and colleges in its object and methods of work. The objects of the academy and college are general culture and the acquisition of knowledge; the object of the Normal School is to impart culture, discipline, skill and learning to its students for a specific and technical purpose, viz.: that of fitting them to teach others. The academy and college aim to teach their students the various branches of knowledge; the Normal School aims to teach its students not only the branches of knowledge, but also the processes by which the learning mind acquires knowledge and the resultant of these processes. These objects and aims distinguish Normal Schools from other institutions of learning, and determine the courses of study in them and the methods by which the studies must be taught.

General Departments

The qualifications of a teacher, as determined by a correct idea of education, are twofold:

1. *A comprehension of the nature of the being to be educated, and of the branches of knowledge to be taught.*
2. *A comprehension of the principles and methods by which the mental and physical powers are developed, and knowledge and skill are acquired.*

A fully equipped Normal School, therefore, necessarily embraces two general departments of instruction and training, as follows:

1. *The scholastic or academic department*, in which the being to be educated and the branches of knowledge are made the objects of study.
2. *The professional or pedagogical department*, in which are considered the principles and methods by which the mental and physical powers are developed and knowledge and skill are acquired.

Relation to the State

The relation of the Normal School to the State is close. The State must educate the children within its borders. It must, therefore, establish and maintain a system of public education. The most important factor of this system is the teacher. The teacher must be educated in institutions provided by the State and under State control, if his work is to be properly done. It is consequently both a duty and a necessity for the State to found and support State Normal Schools. These views, which are accepted almost universally throughout the civilized world, show that the function of the Normal School is peculiar, and that its responsibilities are greater than those of other educational institutions.

Object of this Institution

The object of this institution is mainly professional. It gives to its students—

1. Such knowledge of the studies taught in the public schools as a teacher must have in order to teach them properly.
2. A knowledge of the studies so related to the branches taught in the public schools as to be necessary to a proper understanding of the public school branches.
3. A knowledge of the mental and physical powers of the child and their methods of development.
4. A knowledge of the principles of education and methods of teaching, and their application in the actual work of the school room.
5. A knowledge of the methods of organizing and managing schools.
6. A knowledge of the history of education, so far as it bears upon the work of the public schools of the present day.
7. A knowledge of the schools of the State, especially those devoted to public education.
8. A knowledge of the school law of the State.
9. In brief, this institution aims to prepare teachers both theoretically and practically for the vocation of teaching in all grades of public schools.
10. This institution also offers to its students an opportunity

to fit themselves for entrance to the leading colleges of the country. The demand for teachers of business departments in high schools and of musical departments in seminaries is met by the courses established in these branches.

Courses of Study

For Pennsylvania State Normal Schools

As revised and adopted at a meeting of Normal School Principals, held at Harrisburg, November 8, 1900. Approved, January 9, 1901. To take effect September, 1902. (See new Four Years' Course, p. 21.)

Regular Course

(Studies marked with a (*) are to be reviewed in Senior Year.)

Junior Year

Pedagogics.—School Management.

Language.—English Grammar,* Reading, Orthography, Latin to Cæsar.

Mathematics.—Arithmetic,* Algebra.

Natural Science.—Physiology.

Historical Science.—Geography, U. S. History, Civil Government of the United States and Pennsylvania.

Arts.—Penmanship (an approved system, with a fair handwriting), Drawing (daily lessons for at least 20 weeks), Vocal Music (elementary principles and daily exercising for at least 10 weeks), Bookkeeping (single entry, with a knowledge of common business papers).

Physical Culture.

Middle Year

Pedagogics.—Psychology, Methods of Teaching.

Language.—Rhetoric and Composition, with elementary exercises; three books of Cæsar.

Mathematics.—Plane Geometry.

Natural Science.—Elements of Chemistry, Elements of Zoology, Botany.

Historical Science.—General History.

Arts.—Manual Training.

Physical Culture.

Senior Year

Pedagogics.—History of Education, Methods of Teaching, Practice of Teaching in Model School (at least 20 weeks, forty-five inmutes daily).

Language.—Literature and Classics, three orations of Cicero, three books of Virgil, Review of English Grammar.

Mathematics.—Solid Geometry, Plane Trigonometry and Surveying, Review of Arithmetic.

Natural Science.—Physics, Elements of Geology, Review of Geography.
Physical Culture.

Substitutions

The following substitutions may be made:

Junior Year.—German or French for Latin.

Middle Year.—German or French for Latin; Greek, German or French for Chemistry.

Senior Year.—English History, Ethics and either Astronomy or Logic for Latin; German or French for Latin; Greek, German or French for Solid Geometry, Trigonometry and Surveying.

Supplementary Course

(In addition to the Regular Course.)

Applicants for Degrees Must Appear at the School for Final Examination

Leading to the Degree of Master of Pedagogics

First Year

The following is an outline of the work to be done: Full abstracts in applicant's own language of James' Psychology (Briefer Course), Harris' Psychological Foundations, Horn's or Rosenkranz's Philosophy of Education, Pickard's School Supervision and chapters on School Supervision by Dutton. Examination on Baldwin's School Management and Method, Parts IV. and VI., Munroe's History of Education, "Education" in Encyclopedia Britannica. A Thesis on School Appliances and Apparatus, of not less than 1,500 or 2,000 words, must be submitted.

Two years' teaching after graduation in the Regular Course.

Professional Reading, with abstracts: History of Education in the United States (Boone), European Schools (Klemm), Systems of Education.

Sanitary Science, School Architecture, etc.

Thesis.

A full equivalent will be accepted for any of the text-books named above. The courses in reading and classics for all the courses shall be determined by the Board of Principals at their annual meeting, and shall be the same for all normal schools.

Rules for Final Examinations, Admission to the Middle and Senior Classes, Etc.

(For all the Normal Schools of Pennsylvania.)

1. Admission to the Senior and Middle Classes shall be determined by the State Board of Examiners at their annual examination by the Board.*

*Examinations in the State Normal Schools of Pennsylvania by the State Board of Examiners are held annually in June, and at no other time.

2. In order to be admitted to the Middle Class at any State Normal School, students must be examined by the State Board in all the Junior studies (except English Grammar and Arithmetic), and this examination shall be final.* Persons who desire to be admitted to the Middle Class without having previously attended a State Normal School must pass an examination by the Faculty and State Board of Examiners in the academic studies of the Junior year (except the Senior review studies), and Plane Geometry or the first book of Cæsar, and must complete School Management in the Middle year.

3. In order to be admitted to the Senior Class, students must be examined by the State Board in all the Middle year studies (except Methods), and this examination shall be final. Persons who desire to be admitted to the Senior Class without having previously attended a State Normal School must pass an examination by the Faculty and State Board in the Academic studies of the entire course, except the review studies of the Senior year; and must devote their time during the Senior year to the professional studies of the course, and the review studies.

4. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examinations at any other State Normal School during the same school year.

5. If a person who has completed the examinations required for admission to the Middle or Senior class at any State Normal School desires to enter another Normal School, the Principal of the school at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of the Junior or Middle year studies shall be issued.

6. Candidates for graduation shall be examined by the State Board in all the branches of the Senior year, including English Grammar and Arithmetic. They shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double-entry book-keeping; and all studies completed by them shall be named in their certificates.

7. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas to the passing of the branches completed at said examination.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. The certificate for the studies of the Junior year shall also include the standing of applicants in the review studies of the Senior year.

9. Graduates of State Normal Schools in the regular course and graduates of accredited colleges may become candidates for the degrees of Bache-

lor of Pedagogics and Master of Pedagogics. To obtain these degrees, candidates must be examined by the Faculty and State Board upon the studies of the Supplementary Course. Three years' successful teaching in the public schools of the State since graduation (or two years in the case of candidates who taught in the Model School) will be required of all candidates for the degree of Master of Pedagogics, in addition to the branches of study indicated above.

10. Attendance at a State Normal School during the entire Senior Year will be required of all candidates for graduation; but candidates for the pedagogical degree may prepare the required work in absentia.

"No temporary or provisional certificate of any less degree of scholarship than that required by the ninth section of this act [certificate of graduation], shall be issued by said Board of Principals, nor by the faculty of any of said schools, but the principal of each of said schools may certify, in writing, to the length of time which teachers may have attended, under the eleventh article of the sixth section of this act, and the manner of their deportment while in attendance." (C. S. Law, Sec. 368.)

Courses of Study

Arranged for This Institution

Normal Department—Regular Course

THE studies of the Regular Course as here arranged are so graded as to accomplish two objects: (1) To enable the students to pursue and complete the different branches in the proper order; and (2) to fit students as soon as possible for the work of teaching.

All branches of the Regular Course may be “passed” on “special” examinations. Our object is to give students full credit for what they know when they enter school, and to classify them where they can make the most rapid advancement in their studies consistent with thoroughness.

The Regular Course Arranged by Terms

C Preparatory Classes

1. FALL TERM. *Required Studies.* Reading and Orthography, Grammar and Composition. Written Arithmetic, Physiology or Political Geography, Penmanship, Physical Culture, two studies selected from group of Elective Studies.*

2. WINTER TERM. *Required Studies.* Continuation of Fall Term studies.*

3. SPRING TERM. *Required Studies.* Continuation of Winter Term Studies.*

B Preparatory Classes

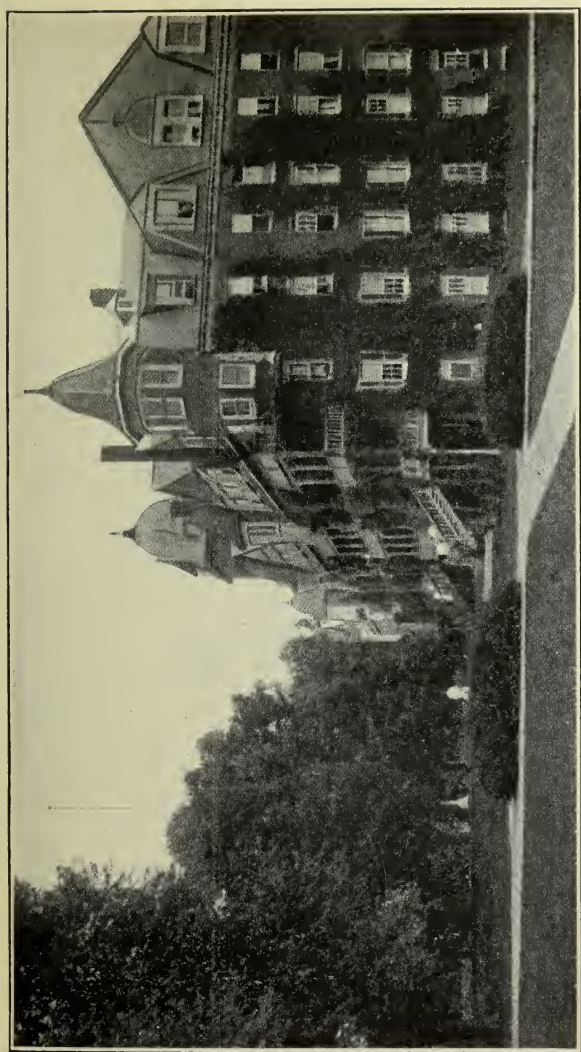

1. FALL TERM. *Required Studies.*† Reading, Grammar and Composition, Written Arithmetic or Mental Arithmetic, Political Geography or Physiology, Penmanship or Drawing, Physical Culture, two studies selected from group of B Elective Studies.†

2. WINTER TERM. *Required Studies.* Reading or Elements of Literature, Grammar and Composition, Written Arithmetic or Mental Arithmetic, Political Geography or Psychology, Penmanship or Drawing, Physical Culture, two studies selected from group of B Elective Studies.†

3. SPRING TERM. *Required Studies.* Reading or Elements of Literature, Grammar and Composition, Written Arithmetic or Mental Arithmetic,

**Elective Studies for C Class.* Latin, U. S. History, Mental Arithmetic, Political Geography, Drawing, Vocal Music, German, French, Methods.

†*Elective Studies for B Class.* Latin, Algebra, U. S. History, Mental Arithmetic, Physiology, Physical Geography (3B), German, French, Drawing, Vocal Music, Book-keeping (3B), Methods.

LADIES' BUILDING.

East front 150 ft., north front 150 ft.

Political Geography or Physiology or Physical Geography, Penmanship or Drawing, Physical Culture, two studies selected from group of B Elective Studies.

Conditional Junior or A Preparatory Classes

The A Classes may be considered "conditional" Junior Classes.

1. FALL TERM. *Required Studies.** Reading or Elements of Literature, Grammar, Written Arithmetic, Algebra or Mental Arithmetic, Political Geography or Physiology, U. S. History, Drawing or Penmanship, Physical Culture.

2. WINTER TERM. *Required Studies.** Reading or Elements of Literature, Grammar, Written Arithmetic, Algebra or Mental Arithmetic, Political Geography or Physiology or Physical Geography, U. S. History, Drawing or Penmanship, Physical Culture.

3. SPRING TERM. *Required Studies.* Reading or Elements of Literature, Grammar, Written Arithmetic, Algebra or Mental Arithmetic, Political Geography or Physiology or Physical Geography, U. S. History, Drawing or Penmanship, Physical Culture.

For every study completed of the "Required Studies" one of the "Elective Studies" should be submitted.

Conditional Junior or Sub-Junior Studies to be Completed

The following studies must be completed before a student is admitted unconditionally to the Junior Class:

Reading, Orthography, Political Geography, Physiology, Penmanship.,

A fair knowledge of the "required" preparatory branches will also be demanded for admission to the Junior Class.

Advanced Junior Year

1. FIRST TERM.† *Required Studies.‡* Methods,** English Grammar, Latin, Algebra, *Mental Arithmetic*, U. S. History, Drawing, *Vocal Music*, Physical Culture.

2. SECOND TERM.† *Required Studies.‡* Methods,** *Elements of Literature*, Latin, Written Arithmetic, Algebra, *Physical Geography*, U. S. History, Drawing, Physical Culture.

3. THIRD TERM.† *Required Studies.‡* *School Management*, English Grammar, Latin to *Cæsar*, Written Arithmetic, Algebra, Civics, Single Entry Bookkeeping, Physical Culture.

Substitution. German or French for Latin.

**Elective Studies for A Classes.* Latin, Algebra, Physical Geography, Physiology, Mental Arithmetic, Drawing, Elements of Literature and Composition, Vocal Music, Bookkeeping, Methods, German, French.

†Classes in the "First Term" studies of the Junior Year will be formed in the fall and spring terms; "Second Term" studies in the winter and spring terms; "Third Term" studies in the spring term.

‡For every study completed of the "Required Studies," one of the "Elective Studies" should be substituted.

**For outline of courses in Methods, see p. 27.

Elective Studies for Junior Classes. Manual Training, German, French, Middle Year Studies.

Middle Year

1. FALL TERM. *Required Studies.* Psychology, Methods,* Rhetoric and Composition, Cæsar, Plane Geography, Elements of Chemistry, General History, Manual Training, Physical Culture.

2. WINTER TERM. *Required Studies.* Psychology, Methods,* Rhetoric and Composition, Cæsar, Plane Geometry, *Elements of Chemistry, General History*, Manual Training, Physical Culture.

3. SPRING TERM. *Required Studies.* Methods and Observation in Model School, *Rhetoric and Composition, Cæsar, Plane Geometry, Botany, Elements of Zoology, Manual Training*, Physical Culture.

Substitutions.—German or French for Latin; Greek, German or French for Chemistry.

Elective Studies for Middle Year.—Greek, German, French, Senior Studies.

Classes in the studies of the fall and winter terms of the Middle Year are not formed in the Spring term, as a rule. Students will find it exceedingly beneficial, if not absolutely necessary, to attend school during the entire Middle Year.

Senior Year

1. FALL TERM. *Required Studies.* *History of Education*, Methods,* Practice in Model School, *English Classics*, Cicero, *Solid Geometry*, Physics, Physical Culture.

2. WINTER TERM. *Required Studies.* Methods, Practice in Model School, *American Literature*, Cicero and Virgil, *Trigonometry* and Surveying, Physics, Physical Culture.

3. SPRING TERM. *Required Studies.* *Methods, Practice in Model School, English Literature, Virgil, Surveying and Review Arithmetic, Geology, Review English Grammar*, Physical Culture.

Substitutions.—German or French for Latin; English History, Ethics and either Astronomy or Logic for Latin; Greek, German or French for Solid Geometry, Trigonometry and Surveying.

Elective Studies for Senior Year.—Greek, French, German, advanced work in Latin, History, Mathematics.

Attendance during the entire school year is required of the Senior Class.

The township high school law requires the Regular Course *without any substitutions.*

Supplementary Course

(In addition to the Regular Course.)

First Year

Leading to the Degree of B. Pd.—The following text-books are suggested, though others equally good may be used: Rosenkranz's or Horn's Phil-

*For outline of courses in Methods, see p. 32.

osophy of Education, James's Advanced Psychology (Briefer course), Harris's Psychological Foundations, Packard's and Dutton's School Supervision. For Devices for Teaching, Baldwin's School Management and Method, Part IV and Part VI, may be studied. For Educational Theories, see any good History of Education and the article on "Education" in the Encyclopedia Britannica. The subject of School Apparatus and Appliances may be worked up as a thesis.

Second Year

Leading to the Degree of M. Pd.—Two years' Teaching after Graduation in the Regular Course. History of Education in the United States, Boone; European Schools, Klemm; Educational Foundations of Trade and Industry, Ware. For Sanitary Science, the following are suggested: Wheelright, chapter II; Morrison's Heating and Ventilating of School Buildings, and Encyclopedia Britannica, articles on "Hygiene and Sewerage." School Architecture, Wheelright's chapters 1, 2, 5; or School Architecture and Hygiene, Morrison. The subject, "Systems of Education," may be briefly discussed in place of a thesis.

College Preparatory Course

Students will have an opportunity of pursuing college preparatory studies in connection with their regular work when the studies can be provided for without disadvantage to the school. See page 22 of this catalogue.

Business Course. Preparatory Studies

To be completed.—Penmanship, Reading, Orthography and Political Geography.

A fair knowledge of Written Arithmetic, Mental Arithmetic, Grammar and Compositions, and S. E. Bookkeeping.

Business Course, Completed

Required.—Business Penmanship, U. S. History, 2 sets D. E. Bookkeeping (3 periods), Grammar and Composition, Written Arithmetic, Commercial Geography, Civics, Commercial Law, Physical Culture.

Optional.—Shorthand and Typewriting.

Typewriting

A Course in Typewriting may be taken in connection with the foregoing Business Course or independently of it. Students usually acquire a good rate of speed in three months with one hour's daily practice.

Shorthand

PREPARATORY.—ADVANCED.

The Shorthand Course may be taken with either of the foregoing Courses or independently of them. It usually requires about six months to complete

the Preparatory Course in Shorthand, though students may acquire a sufficient knowledge of the subject in a shorter time to enable them to continue the practice without a teacher.

Kindergarten Course

Complete Junior Year as outlined.

Substitutions for Middle Year.—Special Kindergarten work (3 periods), Latin, Geometry and General History.

Pedagogical Course for College Graduates

Advanced Psychology, Ethics, Logic, History of Education, Philosophy of Education, Methods of Teaching, School Economy, Practice of Teaching, Courses of Professional Reading, Review of Common Branches.

College graduates who graduate at this Normal School may receive a diploma including the studies of their college course, in addition to the branches of the Regular Course.

Vocal and Instrumental Music

(The courses in Voice Culture, Vocal and Instrumental Music are so arranged that students may study music while pursuing branches of other courses.)

Opportunity to complete any of the foregoing courses as early as possible will be afforded. It must be remembered, however, that studies are taught in this institution from the point of view of the teacher, and that consequently they are differently (and more thoroughly) taught than in academies and high schools.

Classes with fewer than seven students will not be formed, as a rule, or, if formed, they may recite only on alternate days.

Studies not named in the foregoing courses will not be taught except by special arrangement, and extra charges may be made for all such branches.

Persons not connected with the school will not be permitted, as a rule, to give students lessons in any subject, either at this school or elsewhere.

Saturday Classes

Non-resident students may arrange with the members of the Faculty for Saturday classes.

Outline of Four Years' Normal School Course

APPROVED MAY 4, 1910.

FINALLY REVISED AND ADOPTED DECEMBER 30, 1910.

This course is based on the "unit" plan as proposed by the Carnegie Foundation.

A "unit" represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work.

(This statement is designed to afford a standard of measurement for the work done in a secondary school. It takes the four-year high school course as a basis and assumes that the length of the school year is from thirty-six to forty weeks, that a period is from forty to sixty minutes in length and that the study is pursued for four or five periods a week; but, under ordinary circumstances, a satisfactory year's work in any subject cannot be accomplished in less than one hundred and twenty sixty-minute periods or their equivalent. Schools organized on a different basis can nevertheless estimate their work in terms of this unit.)

Students admitted to the First Year shall have a fair knowledge of Arithmetic, Reading, Orthography, Penmanship, United States History, Geography, Grammar, Physiology, Civics, and the Elements of Algebra to Quadratics. Test by Faculty.

First Year

	No. of 60-Minute Periods.	No. of 45-Minute Periods.
Algebra	120	160
Latin	120	160
School Management and School Law..	120	160
Orthography	30	40
Reading and Public Speaking	40	50
Ancient and Mediæval History	80	100
Physical Geography	40	50
Arithmetic	80	100
Grammar	120	160
Vocal Music	40	50
Physical Training	60	80
Manual Training and Domestic Science	40	50
		<hr/> 1160

Final Examination by State Board.

Second Year

	No. of 60-Minute Periods.	No. of 45-Minute Periods.
Plane Geometry	120	160
Rhetoric, Composition, Classics	120	160
Botany	80	100
Zoölogy	40	50
Book-keeping	40	50
Modern History and English History.	80	100

Cæsar	120	160
General Methods	120	160
Drawing	80	100
Physical Training	60	80

 1120

Final Examination by State Board.

Third Year

	No. of 60-Minute Periods.	No. of 45-Minute Periods.
Psychology and Observation	120	160
Cicero, German or French	120	160
Literature, English and American	80	100
History, U. S., and Civics	60	80
Geography	60	80
Physiology and School Sanitation ..	60	80
Solid Geometry and Trigonometry ..	120	160
Methods in History and Geography .	80	100
Chemistry	120	160
Physical Training	60	80

 1160

Final Examination by State Board.

In the third year the History of Arts and Sciences may be substituted for Cicero, French or German. Geology and Astronomy may be substituted for Solid Geometry and Trigonometry.

Fourth Year

	No. of 60-Minute Periods.	No. of 45-Minute Periods.
Practice Teaching	120	160
History of Education	80	100
Agriculture and Nature Study	80	100
Arithmetic	40	50
Grammar	40	50

	No. of 60-Minute Periods.	No. of 45-Minute Periods.
Methods in Arithmetic and Grammar	80	100
Virgil, German and French	120	160
Public Speaking	40	50
Physics	120	160

Drawing	40	50
Manual Training or Domestic Science	40	50
Physical Training	60	80

 1110

In the fourth year, Ethics, Logic and Sociology may be substituted for Virgil, French or German. Philosophy of Education, or Surveying may be substituted for Ethics, Logic or Sociology.

Final examination by State Board and graduation.

Conditions of Admission, Etc.

1. Properly certified graduates of approved Pennsylvania high schools of the first grade and city high schools as listed by the Department of Public Instruction shall be admitted to the third year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

2. Properly certified graduates of approved Pennsylvania high schools of the second grade shall be admitted to the second year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

3. Properly certified graduates of approved Pennsylvania high schools of the third grade shall be admitted to the first year of the Four Years' Course of the State Normal Schools without examination, and be conditioned in the branches that have not been satisfactorily completed by such students.

4. A person who desires to be admitted to the second or the third year without having previously attended an accredited high school, must have a certificate of a commissioned Superintendent of Schools, showing that he has pursued the branches of the first year or the first and second years, with his standing in those branches, or must pass a satisfactory examination by the Faculty in said branches, or be conditioned in them. But the studies in which any one is conditioned under this rule or any one of the rules above, shall not foot up more than 320 weeks.

5. If the Faculty of any State Normal School or the State Board of Examiners decide that a person is not prepared to pass an examination by the State Board, he shall not be admitted to the same examinations at any other State Normal School during the same school year.

6. If a person who has completed the State Board examinations required for admission to the classes of any year at any State Normal School desires to enter another Normal School, the Principal of the

School at which the examination was held shall send the proper certificate to the Principal of the school which the person desires to attend. Except for the reason here stated, no certificate setting forth the passing of any studies at a State Normal School shall be issued.

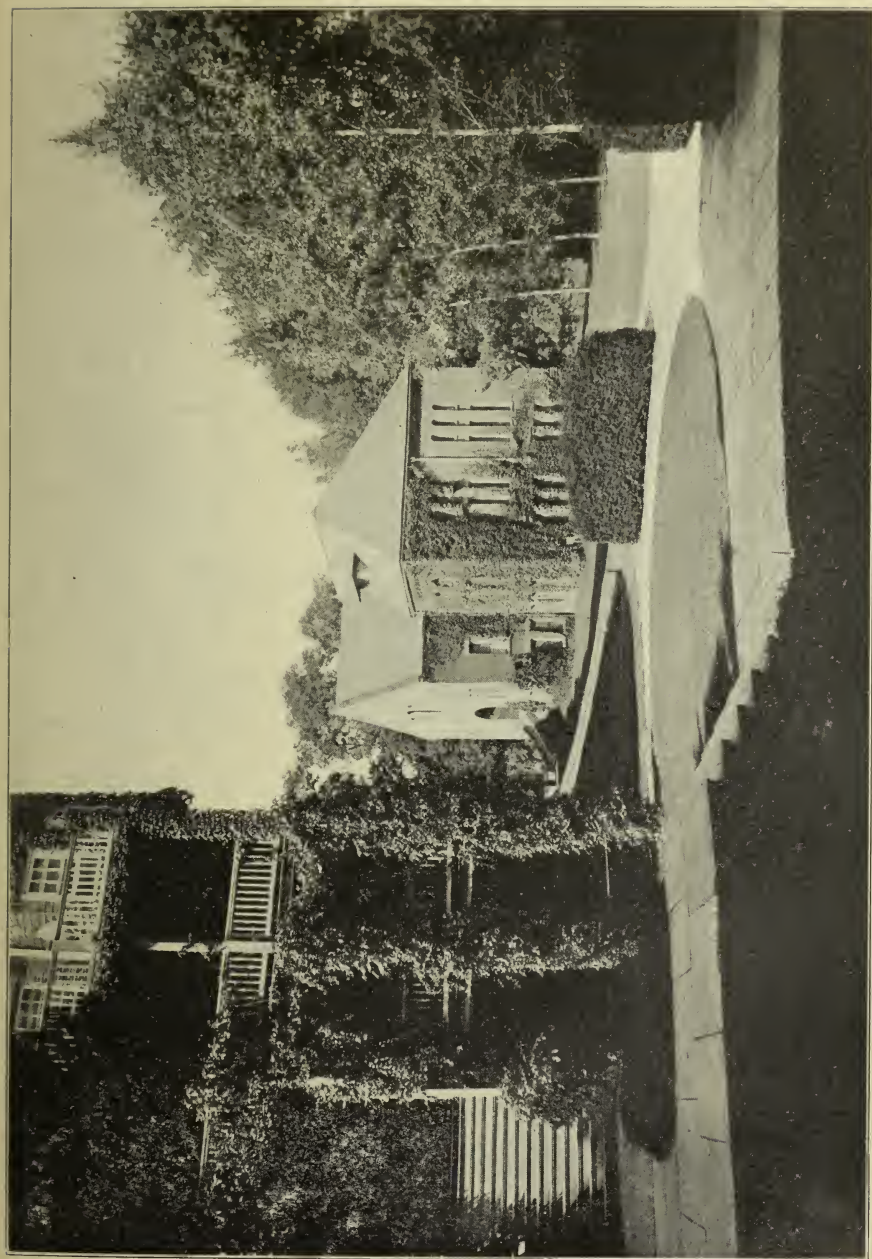

7. Candidates for graduation shall have the opportunity of being examined in any higher branches, including vocal and instrumental music and double entry book-keeping; and all studies completed by them shall be named in their certificate. Persons who have been graduated may be examined at any State examination in any higher branches, and the Secretary of the Board of Examiners shall certify on the back of their diplomas as to the passing of the branches completed at said examination. No certificate or diploma valid for teaching except the one regularly issued by the State Board of Examiners to regular graduates shall be issued by any State Normal School or any person connected with any such school.

8. A certificate setting forth the proficiency of all applicants in all the studies in which they desire to be examined by the State Board of Examiners shall be prepared and signed by the Faculty and presented to the Board. Studies that have been completed at a high school shall be distinguished by the words "high school" or the initials "H. S." A separate list of each class shall be prepared for the use of each examiner, together with a separate list of students conditioned in any branch, with the branches in which they were conditioned, and the grades shall be indicated in every list where substitution is made or extra branches are taken. These lists shall be ready for the State Board before the examination begins.

9. No State examination shall be given to any student on part of a year's work unless the study is completed, but (except in the last year's examination) a student may be conditioned by the State Board of Examiners in not more than two subjects, covering not more than one period of work for a year. Accurate records of these conditions shall be promptly sent to the Superintendent of Public Instruction and the fact that the students thus conditioned have taken up such subjects and passed them by the faculty shall be certified to in writing to the State Board of Examiners before such students are admitted to another State Examination.

10. Within fifteen days after the examination by the State Board at any Normal School, the Principal of the school shall send to the Department of Public Instruction a complete list of all who have taken advanced branches, together with a list of these branches, also a list of those to whom diplomas and certificates were granted, and a list of those who passed the State examination in any year, naming the year.

11. Graduates of State Normal Schools in the regular course, and graduates of colleges approved by the College and University Council, who shall satisfactorily pass the Faculty and State examinations in the

CORNER OF THE LADIES' BUILDING, THE GYMNASIUM, SHADY NOOKS.

course required therefor, shall receive the degree of Bachelor of Pedagogics. And Bachelors of Pedagogics who have, after receiving such degrees, taught successfully for two years, and passed the Faculty and State examinations in the course required therefor, shall receive the degree of Master of Pedagogics.

12. Residence for the last two years shall be required of all students, except in the case of graduates of Four Years' Courses in colleges approved by the College and University Council, who may be graduated after one year's residence.

Resolved, That the new course go into effect in the fall of 1910; that in 1911 and 1912, students shall be graduated on basis of the old course; that in 1913 they may be graduated in either the old or the new course; that in 1914 and thereafter they may be graduated only in the new course.

The foregoing resolution apply only to the Four Years' Course. From the last resolution it is evident that in the fall of 1910 no student can be admitted into the third year of the Four Years' Course because no students will be graduated in the Four Years' Course in 1912. But students may be admitted in the fall of 1910 into the first year of the Four Years' Course so as to graduate in this course in 1914; or, if sufficiently advanced, they may be admitted in the fall of 1910 into the second year of the Four Years' Course so as to graduate in this course in 1913.

Graduation from the Three Years' Course will be governed by the rules heretofore in force. Students who in June, 1910, pass the examinations at the end of the Junior Year, can be admitted into the Middle Year of the Three Years' Course so as to graduate in the Three Years' Course in 1912. Students who in June, 1910, pass the examinations at the end of the Middle Year can be admitted into the Senior Year of the Three Years' Course so as to graduate in the Three Years' Course in 1911. Students can be admitted into the Junior Year in the fall of 1910 so as to graduate in the Three Years' Course in 1913. After the year 1913 students will be graduated only in the Four Years' Course.

NATHAN C. SCHAEFFER,
State Superintendent of Public Instruction.

Academic Departments

THE first qualifications of a teacher are cultured powers and a well-informed mind. He needs knowledge in order to be able to instruct others; a person cannot teach what he does not know, and he should know much more than he attempts to teach. He needs culture for the power that it gives; the power to think, to originate, to influence and to control. Hence—

1. *Thorough scholarship lies at the foundation of a teacher's course.*

2. *A Normal School should make careful and ample provisions for the academic training of its students.*

The courses of study arranged for this institution are in accordance with these principles. All the branches of knowledge included in them are essential to give the student general culture, and to fit him academically for the profession of teaching. As will be seen by reference to the "Courses of Study," the work in each department is carefully graded. Attention is called to the work in the various academic departments.

English Department

Reading.—Special attention is given to Reading and Elocution. In addition to teaching Reading as the process of obtaining thought from the printed page, and thus emphasizing the vital part of this subject, the course embraces the principles of elocution and daily practice in their application. Frequent exercises in recitation and declamation are also required, and constant attention is paid to peculiarities and defects of pronunciation. This department endeavors to inculcate a taste for good reading and to improve the oral expression of thought, and aids the other departments of the school in training our students in the correct use of pure English.

Grammar.—A proper amount of attention is given to the study of English Grammar. All our students have daily exercises in this branch from the time they are prepared to begin the study until it is completed. In the lower classes the method of instruction is concrete and inductive, much attention being paid to the proper use of words, the construction of sentences and the correction of false syntax. In the higher classes analysis and the philosophical principles of Grammar are made more prominent.

English Literature and Composition.—The course includes Orthography,

Composition, Rhetoric, the study of selected English classics and the history of English and American Literature. Composition is begun in the Grammar classes, pursued as a separate study in the Junior year, and continued in the Middle year, with a text-book on Rhetoric as a basis. Throughout the course stress is laid upon practice rather than theory. The work in Literature is begun in the reading classes. In the Junior and Middle years it is continued in connection with Composition, the class studying a play of Shakespeare and other classics. The Senior class covers the work prescribed for college entrance, comprising the careful study of five or more classics and the reading of ten others, with a systematic study of the history of English and American literature, and a course of reading in the works of representative authors. The excellent libraries of the school are in constant use in this department, and efforts are made to teach our students to appreciate good literature. The books prescribed for the years 1910-11 are as follows:

For Careful Study. (1911-12)

Addison's De Coverley Papers.
Milton's Minor Poems.
Shakespeare's Macbeth.
Homer's Iliad.
Emerson's Select Essays and Poems.
Stevenson's Travel with a Donkey.
Scott's The Lady of the Lake.

For Reading. (1911-12)

Palgrave's Golden Treasury.
Dickens's David Copperfield.
Tennyson's Idylls of the King.
Mrs. Gaskell's Cranford.
Franklin's Autobiography.
Shakespeare's Henry V.
Byron's Childe Harold.
Arnold's Sohrab and Rustum.

Classical Department

Latin.—To complete the Latin of the Regular Course requires about three years. During this time students receive a thorough drill in Latin Grammar, learn to translate Cæsar, Virgil and Cicero, and lay an excellent foundation for a more extended study of the language than is required for the Normal School Course. The study of Latin, as here pursued, is of great value on account of the mental discipline that it gives and the exercise in the selection and discrimination of English words that it affords.

Greek, German and French.—These languages are taught by competent

instructors. The extent to which they may be studied depends upon the time and desire of the student and the conditions of the school.

The work in the classical department aims to fit students to enter the leading colleges of the country without conditions. Many colleges now admit our students to the Freshmen classes on the certificate of the Faculty. It may be added that students have entered the Sophomore, Junior and Senior classes in college from this school, though the school does not regularly provide for advanced work.

Geographical and Geological Departments

The course in Geography includes thorough academic training in Commercial, Physical and Mathematical Geography, as well as in the methods of teaching geography in the various grades of both common and high schools. In addition, each student is taught to do some "Nature Work" in Geography, by field lessons, experiments and special studies on assigned topics.

The course in Geology for the Seniors includes both text-book study of elementary Geology and some field work in Dynamical and Physiological Geology. The latter enables the student to understand and explain the main topographic features of the earth.

The department is well supplied with maps, globes, geological maps and sections and museum materials.

History

The course in History embraces History of the United States, General History and Civil Government, both State and National, and History of Education. The library method is used in connection with the text-book in the study of these branches. Students are guided in their historical reading, and are encouraged to study the biographies of the men and women who have made the world greater and better.

Natural Science

Natural Science.—Our facilities for the study of Natural Sciences are excellent. We have a large collection of minerals and plants in the museums, and the country around is unusually rich in botanical specimens. To aid in teaching Physiology, we have purchased the necessary anatomical apparatus, consisting of French models, skeletons, etc. Twelve large microscopes of superior manufacture have been purchased, and portions of nearly all of tissues, glands and organs of the body have been carefully mounted and prepared for use in the study of Physiology. The same facilities are at hand for the study of Botany. A large collection of native birds and a collection of native woods have been placed in the museum. We are also well supplied with Philosophical apparatus, much of which was selected for this school in Germany. We have also added a dynamo and other electrical appliances, so as to be able to illustrate clearly the recent practical and interesting applications of electricity; including wireless telegraphy.

Chemistry.—The instruction in this branch is designed to prepare teachers to perform various chemical experiments and to give lectures to their classes. It also gives the necessary preparatory knowledge to students who intend to study medicine or to prepare for any other profession or occupation in which such knowledge of Chemistry is required.

In this department and in the geographical departments students gain a knowledge of the facts and principles which underlie the courses in "Nature Study" now given in the best public schools.

Mathematical Department

Mathematics.—The course in Mathematics aims to secure two objects: the development of the power of deductive reasoning and practical skill in the application of mathematical principles. The course in Arithmetic is thorough and complete. The objects of the study of Mental Arithmetic are analysis and mental discipline, while in Written Arithmetic the aim is the power of synthetical thought and skill in the application of the science of numbers. The other branches of mathematics are likewise thoroughly taught. The relation of Algebra and Geometry to Arithmetic is made clear. The scientific course in Mathematics is more extensive than the mathematical course in many colleges.

Drawing

Drawing.—The subject of Form Study and Drawing receives the attention which its importance demands. A carefully graded course, embracing the latest and best methods of presenting the subject, is provided for our students, and a large room is specially fitted up and supplied with models, casts, pictures, etc.

Manual Training

Two large rooms in the Science Building are devoted to Manual Training. The shop for wood work has twenty improved Sheldon Benches with rapid-acting iron vises and a complete tool equipment. The other room is equipped for sewing and handiwork for elementary schools.

Woodwork.—Two and one-half periods a week for twenty weeks are required of the men in shop-work. The course consists of five models, or their equivalent, covering the use of common tools, methods of construction, simple staining and finishing. The work in wood is preceded by a limited amount of required reading based largely on government bulletins. This gives the student a knowledge of material used and also acquaints him with government bulletins as an available source of information.

Sewing.—Two and one-half periods a week for twenty weeks are required of all girls. The subject is introduced by a brief study of the more common textile fibres, the materials and equipment used. Basting, stitching, hemming, oversewing, buttonholes, repairing and mending are taught, and the making of at least one garment for the practical application of principles and stitches.

Handwork for Elementary Schools.—Two and one-half periods a week for twenty weeks are required of all students. The work comprises basketry, paper and cardboard construction, weaving and work with native material. The aim of the course is to develop practical work for schools having no special Manual Training equipment and very little money available for the subject.

Department of School Arts

Bookkeeping.—Theoretical and practical bookkeeping, both single and double entry, typewriting, business correspondence, etc., are taught in such a way as to develop thought, as well as to make students skilled accountants. (In addition to these studies, the business course includes arithmetic, English grammar and composition, penmanship, commercial geography, etc. The opportunities for acquiring a good education in addition to a knowledge of bookkeeping make this course especially valuable.)

Penmanship.—Full opportunity for students to acquire a good style of writing is provided. Ornamental penmanship, pen-drawing, lettering, etc., are also taught.

Vocal Music.—Instruction in the elements of Vocal Music is imparted to our students, including sight reading, the proper management of the voice, the theory of vocal music, the best way of presenting the subject to children, etc. Special lessons in "school music" may be taken.

Special Courses in Music.—To meet the growing demand for teachers of vocal and instrumental music, the courses in music outlined on page 19, which are modeled after the best European music schools, have been arranged in addition to the regular instruction in singing, sight reading, etc.

Shorter courses are also given, and special opportunities are offered in voice culture for gentlemen as well as ladies.

In addition to the regular classes in sight reading, etc., an advanced choral class, composed of the best musical talent of the school, is formed for the study of the great masters. The works of Haydn, Mendelssohn, Stainer, Gounod, Spohr, Mozart, Gaul, Rossini, etc., are studied. Music students will take part in frequent recitals and other public work, as they are qualified.

Arrangements for lessons on the violin, mandolin, flute and other instruments are made when necessary.

Physical Culture

This department has been organized for the purpose of providing thorough physical training for our students; the object being, first, the harmonious development of the physical powers, and, second, the preparation of teachers of this important branch. All these exercises are based on physiological and hygienic principles, as determined by the leading authorities on physical education. Special efforts are made in this department to teach students the proper care of their health. The instructors devote their entire time to this department, a lady instructing the ladies, and a gentleman having charge of the gentlemen, each one having an assistant.

Professional Department

THE Professional Department is an essential department of Normal Schools. It belongs to these schools and to universities. Instruction in this department deals with the principles of education, the relation of the different branches of knowledge to one another and to the mind, and the method by which the human powers may be trained, and the mind stored with knowledge. Without some knowledge of these subjects no one should attempt to train the immortal soul of a child. Hence—

1. *Special preparation is necessary to enter the profession of teaching.*

2. *A Normal School should make broad and thorough provision for the pedagogical training of its students.*

THE PROFESSIONAL COURSE is divided into two parts: The *Science of Teaching* and the *Art of Teaching*. The Science of Teaching investigates the principles and methods by which the mind is developed and knowledge and skill are acquired. The Art of Teaching seeks to apply these principles and methods in the work of education. These two divisions are sometimes designated as the *theory* and *practice* of teaching.

The Theory of Teaching

THE SCIENCE OF TEACHING, as presented to the students of the Regular Course, embraces the following subjects: *Educational Psychology, Principles of Education, Methods of Teaching, School Economy* and *History of Education*.

The Science of Teaching receives the attention that its importance demands. Students receive instruction in the elements of Psychology and Pedagogics from their entrance until they reach the second term of the Junior year. During the second half of the Junior year School Economy is taken up and completed. The members of the Middle Class have a daily lesson in Psychology and one in methods of Instruction during the Middle year. Courses of methods of teaching the various branches are con-

ducted by the heads of departments. Eighteen courses are provided for our classes below the Senior year. The members of the Senior Class pursue a course in History of Education, and a course in Methods of Teaching in connection with their practice work in the Model School. The courses in Methods are as follows:

Courses in Methods

General Methods

BY THE PRINCIPAL.

Introduction to Psychology, General Principles and Methods.

BY HEADS OF DEPARTMENTS.

Special Methods

For Sub-Junior Classes.

Beginning Arithmetic, Penmanship, Vocal Music, Beginning History, Beginning Language and Reading, Elementary English, Beginning Geography, Physical Culture, Manual Training, Written and Mental Arithmetic.

For Junior Classes.

Elements of Literature and Composition, Reading and Language, Political Geography, Written and Mental Arithmetic, Nature Study, Physical Culture, Manual Training, Beginning Geography, Beginning Language and Reading.

For Middle Classes.

Drawing, Physiology, Physical and Commercial Geography, Grammar, Elements of Botany and Zoology, U. S. History, Elements of Algebra and Geometry.

For Senior Classes.

1. *Lectures and Notes by Supervisors.*—Reading and Literature, History and General School Questions; Language and Grammar, Number and Arithmetic and Geography; Manual Training; Drawing, Penmanship, Science.

2. *Section Meetings.*—Reading and Literature Teachers, History and Latin Teachers, Number and Arithmetic Teachers, Geography and Grammar Teachers, Language Teachers, Manual Training Teachers, Drawing Teachers, Penmanship Teachers, Science Teachers.

In "section meetings," student-teachers ask supervisors questions concerning their work and receive specific criticism on their work, as observed by the supervisors. Virtually, the section meeting is a conference.

The Practice of Teaching

THE ART OF TEACHING is learned :

1. By a study of the principles and methods of teaching.
2. By the observation of good teaching.
3. By the practice of teaching under careful supervision.

As students will imitate the methods by which they are taught, or which they have seen used, great care is taken to employ correct methods of teaching in the academic departments. The methods here used are regarded as a valuable auxiliary in fitting our students for teachers.

In addition to the models of teaching presented in the academic departments, a systematic course of *observation lessons* on the work done in the Model School is arranged for the Middle Classes. These lessons are arranged by the superintendent of the Model School, and are carefully graded, the student being taught *what to observe* and *how to observe*.

The practice of teaching in a Model School, or school of practice, is an indispensable part of the professional course. Lectures on educational topics cannot fit persons to teach children, neither can observation without extended practice, nor can undirected observation and desultory, occasional teaching of a class. The study of the principle of the science and observation of correct methods must be supplemented by actual practice under careful supervision to attain skill in the art.

The Senior Class in this institution practice in the Model School during the entire school year, each student teaching two or three classes daily. This work is done by the Seniors while pursuing their studies in the Normal School, the programme being so arranged that their duties as teachers will not conflict with their duties as students. Their classes are changed when necessary, so that they have an opportunity to give instruction in the different elementary branches, and to work with all grades of pupils; and they are frequently placed in charge of several grades at one time, teaching one class while the other classes are employed in preparing lessons or in desk work. Careful plans of each year's work are prepared by the student-teachers, and handed to the superintendent for examination; and they are taught how to study

children and how to adapt the branches of knowledge to their mental growth.

This work is under the constant supervision of the superintendent of the Model School and his assistants. The Principal of the School inspects the work in the Model School frequently, and the teachers of "Methods," as well as other leading teachers, assist in this department, the object being to harmonize all parts of the school and to have every section work towards one and the same end, that of making *skilled teachers* of our students. Our new Model School building, especially designed for the purpose, enables us to train our students to be teachers, as it would be impossible to do without such a building.

No student is legally qualified to graduate at a State Normal School in Pennsylvania unless he has actually taught in a Model School (or school of practice) forty-five minutes daily for at least twenty weeks.

A kindergarten is established in connection with the Model School. It is under the direction of a skilled kindergartner, who also has charge of a training class in this department. The objects of this branch of our Model School department are to acquaint our graduates with kindergarten methods, which may be used with great advantage in primary grade work, and to prepare teachers for kindergartens and sub-primary grades. Our students derive great benefit from this feature of Normal School work.

In the spring term a country school is organized in a room in the Model School specially furnished for the purpose. This school is designated as a model country school, and is continued long enough to allow the Seniors an opportunity of learning how to conduct a school of this kind.

Course of Study in Model School and School of Practice

Kindergarten

Morning Talk, Gift Work, Physical Exercise, Occupation, including Drawing, Painting, Paper Cutting, Folding and Weaving, Clay Modeling, Music, Games.

Primary School

FIRST GRADE.—Reading, Number, Language based on Nature Work and Literature, Writing, Drawing and Painting, Manual Training, Music.

SECOND GRADE.—Reading, Number, Language based on Nature Work and Literature, Writing, Drawing and Painting, Manual Training, Music.

THIRD GRADE.—Reading, Number, Oral History, Oral Geography and Sand Modeling, Language based on Nature Work and Literature, Writing, Drawing and Penmanship, Manual Training, Music.

FOURTH GRADE.—Reading, Number, Oral History, Oral Geography and Sand Modeling, Science, Language, Writing, Drawing and Penmanship, Manual Training, Music.

Grammar School

FIFTH GRADE.—Reading, Oral and Written Arithmetic, History, Geography, and Map Modeling, Language, Science, Penmanship, Drawing and Painting, Manual Training, Music, Gymnastics.

SIXTH GRADE.—Reading, Oral and Written Arithmetic, History, Geography and Map Modeling, Language, Science, Penmanship, Drawing and Painting, Manual Training, Music, Gymnastics.

SEVENTH GRADE.—Reading, Oral and Written Arithmetic, History, Geography and Map Modeling, Language, Science, Penmanship, Drawing and Painting, Manual Training, Music, Gymnastics.

EIGHTH GRADE.—Reading, Mental and Written Arithmetic, History, Geography and Map Modeling, Grammar, Science, German, Penmanship, Drawing and Painting, Manual Training, Music, Gymnastics.

High School

FIRST YEAR.—Literature and Composition, Beginning Latin, Algebra, Science: Botany (14 weeks), Zoölogy (26 weeks); History: Grecian (half year), Roman (half year); Arts: Drawing, Penmanship, Manual Training, Music, Gymnastics.

SECOND YEAR.—Literature and Composition, Latin, Algebra, Science: Botany (14 weeks), Physical Geography (27 weeks); History: English (half year), United States (half year); German, Gymnastics.

THIRD YEAR.—Literature and Composition, Latin (Cæsar, 4 books), Geometry (26 weeks), or Arithmetic (14 weeks); Science: Chemistry (26 weeks), Political Geography or Physiology (half year); German; Arts: Grammar (14 weeks), Drawing, Music; Gymnastics.

A certificate will be given by the Superintendent of the Model School to pupils who complete the grammar school course satisfactorily, and a diploma to pupils who complete the high school course.

The high school in the Model School is equal in standing, equipment, and requirements to a "second grade" township or borough high school.

Examinations and Diplomas

Term Examinations

TERM EXAMINATIONS, for the completion of studies and the promotion of students, are held at the close of each term. Promotions are made, however, *without examination*, whenever warranted by the standing of students.

Special examinations will be held on the Saturday of the Fall and Spring Terms as designated, at 8:30 A. M., 10:30 A. M., and 1:00 P. M., in the following branches:

- 2d Saturday. Political Geography, Orthography, Penmanship.
- 3d Saturday. Mental Arithmetic, Physiology, Reading.
- 4th Saturday. U. S. History, Vocal Music, Physical Geography.
- 5th Saturday. Written Arithmetic, Orthography, Drawing.
- 6th Saturday. English Grammar, Bookkeeping, Elements of Literature.
- 7th Saturday. Algebra, "Junior" Latin, Botany.
- 8th Saturday. Civics, Orthography, School Economy.

Other special examinations will be held when necessary. Persons expecting to attend school, as well as students, have permission to enter any of these examinations.

High school teachers and others may arrange with the Principal to have their pupils examined in any branches in which they desire to be examined, on the first Saturday of each month while this school is in session. These examinations will be held at the Normal School, non-resident examinations having been discontinued at all the Normal Schools by the Board of Principals. High school graduates have the opportunity of completing the studies of the Junior and Middle years in one year.

Final Examinations

Examinations for graduation and for entrance to the Middle and Senior Classes are conducted by the Faculty of the School and by the State Board of Examiners. The Faculty first examine candidates, and, if satisfied with their qualifications, recommend them to the State Board of Examiners for further examination.

The Board of Examiners consist of the State Superintendent

of Public Instruction, the Principal of the Normal School at which the examination is held, the Principal of another Normal School designated by the State Superintendent, and six Superintendents appointed by the State Superintendent.

The Board of Examiners will test the knowledge of the candidates upon all branches of study of the course in which they are examined, special attention being given to the Science and Arts of Teaching.

Persons who have been graduated in the elementary or the Regular Course may be examined at any State examination in any of the branches of the advanced courses and have these branches placed on their diplomas.

Certificates and Diplomas

A student who is graduated in the Regular or the Supplementary Course will receive a certificate, in which will be named the branches of the course, and which will confer upon him the right to teach in the public schools of the State for two years without examination.

A regular graduate who has continued his studies for two years, and has practiced his profession during two full annual terms in the common schools of the State, will receive, upon presenting to the Faculty and Board of Examiners a certificate of good moral character and skill in the Art of Teaching from the Board or Boards of Directors by whom he was employed, countersigned by the proper Superintendent of Schools, a second diploma or certificate, which authorizes him to teach in the public schools of the State without examination. *Applications for the second diploma should be filed with the Principal before the meeting of the State Board of Examiners in June.*

A graduate in the Regular Course who completes the first year in the Supplementary Course may receive the degree of *Bachelor of Pedagogics (B. Pd.)*. After two years' successful teaching and the completion of the second year's course, he may receive the degree of *Master of Pedagogics (M. Pd.)*

State Certificates

Practical teachers may obtain a *Teacher's State Certificate* on the following conditions:

1. All applicants must be twenty-one years of age and must have taught in the common schools of the State during three full annual terms.

2. They must present certificates in regard to moral character and skill in practical teaching, similar to those presented by the regular graduates, and have them signed by the same school officers.

3. They must be examined in all branches of the course in which they desire a certificate by the Faculty and Board of Examiners, at the time of the annual examination at the school where application is made.

4. A thesis on some educational subject will be required as part of the examination. (See C. S. L., Sec. 370.)

The certificate granted in accordance with these conditions will enumerate the branches of study of the course in which the holder is found proficient.

All diplomas and certificates are authorized and furnished by the State, and exempt those who hold them from any further examination by superintendents or other officials acting under the provisions of our common school laws.

Moral and Literary Culture

Moral and Religious Training

MAN is a moral and religious, as well as an intellectual, being. A true education requires the harmonious development of all his powers. Believing in the importance of moral and religious culture, we take great care to aid our students in forming virtuous habits, to imbue their minds with correct moral principles, and to inspire their hearts with the truths of Christianity. The institution, however, is in no sense sectarian, but *each student's religious belief is fully respected.*

Among the religious privileges of the School are morning devotional exercises, Sunday Bible classes, prayer-meetings and an occasional sermon or religious lecture. Students are required to attend the morning devotional exercises and the Bible classes. They will be excused from the Bible classes if they or their parents or guardians have conscientious scruples against their attending. Attendance upon other religious exercises is voluntary.

Literary Societies

Among the attractions of the School are two flourishing Literary Societies, conducted by the students, the "Page" and the "Normal." They hold weekly meetings. They have together about 10,000 well-selected volumes in their libraries. Students may become members of either of these societies by paying a small initiation fee. These societies have been models for a large number of literary societies in Normal Schools and elsewhere throughout the country, and every student is urged to join one of them.

Temperance Union, Etc.

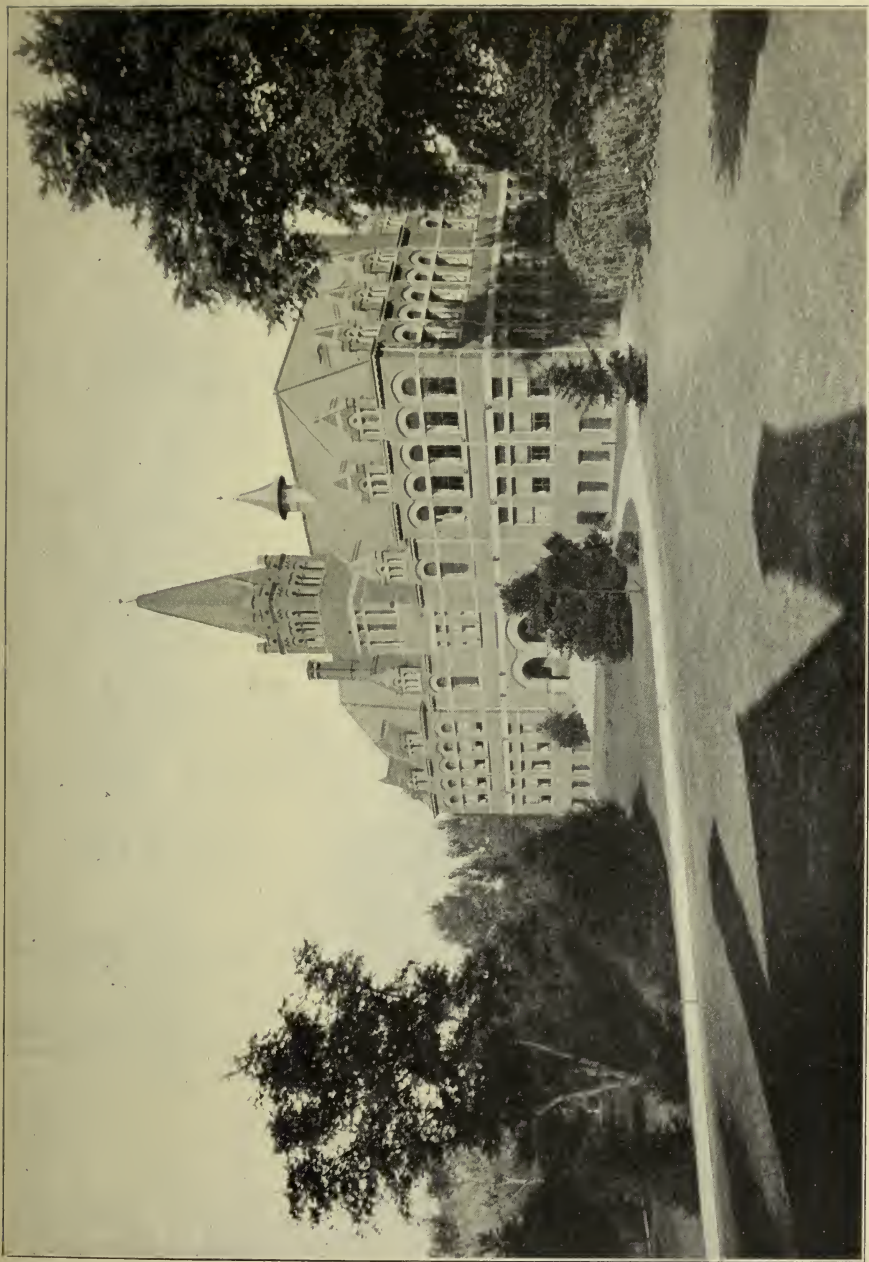

A flourishing Young Woman's Christian Temperance Union is connected with the School. It includes among its members a large number of students of both sexes, and accomplishes a great good.

A Young Men's Christian Association and a Young Women's

Christian Association have also been organized, and each body has a large and influential membership.

Courses of Lectures

The School maintain two courses of entertainments, one of four or five entertainments in the fall and winter terms, and one of two or three in the spring term. Other lectures and exhibitions are also occasionally given. Leading lectures and educational entertainments are thus placed at a small cost within the reach of all our students who desire to attend them.

SCIENCE HALL ON NORTH CAMPUS.

Buildings, Location, Etc.

Main Buildings

THE Normal School buildings are large, the east front of the main buildings being about 300 feet, the south front about 210 feet, and the north front 150 feet. Several upright water pipes that are connected with the standpipe are placed throughout these buildings, with hose attachments that will extend to all parts of the halls and rooms on every floor, and the utmost precautions are taken to prevent accidents by fire. There are eight stairways in different parts of the three main buildings; fire extinguishers are within easy reach; fire escapes and ladders are provided; and special watchmen are on constant duty day and night.

Ladies' Building

The north building is a very large, handsome structure, in the old colonial style of architecture. It is intended for ladies, and has accommodations for about 400 students.

Gentlemen's Building

The south building is used by gentlemen and has accommodations for about 300 students. The architecture of this building has been entirely remodeled, and rooms for about 75 students have been added. New doors, with improved Yale locks, were put on all the rooms of this building in 1910.

Administration Building

A large building is placed between the north and south building, completely separating them. The central building contains the chapel (a beautiful room capable of seating 1,200 persons or more), recitation rooms (sufficient for 1,000 students), Principal's offices, money office, book store, trustees' room, dining room, etc.

Gymnasium

A large gymnasium, with an extension containing instructors' rooms, etc., has been completed and fully equipped with the best

modern apparatus for a complete course of physical training for ladies and gentlemen. It is located north of the new annex to the ladies' building. It is in charge of a lady and a gentlemen specially fitted for their work; and all students have the opportunity of availing themselves of the great advantage of pursuing a course of physical training without extra cost. The work done in the gymnasium has proved of great benefit to our students.

Library

A building, with frontage of 107 feet and a depth of 109 feet, has been erected for library purposes. It occupies a prominent position northeast of the ladies' building. It has a capacity of 100,000 volumes, and one of the handsomest buildings of the kind in the country. It contains the general library of the School, the reading room and reference library, the libraries of the literary societies, etc., in all about 15,000 volumes. It is under the charge of a skilled librarian and one or more assistants, and is open several hours every day. The reference library is supplied with the *Encyclopedia Britannica*, the *International New American* and *Annual Encyclopedias* and many other books of reference, including the latest works bearing upon the subjects taught in the various departments of the School. The reading room is supplied with a large number of the leading magazines and reviews, daily and weekly newspapers, religious periodicals, educational journals, etc. These exceptional literary facilities are afforded to all students without extra charge.

Science Hall

A building devoted to the physical sciences and mechanic arts has been erected on the north campus. The front of the building is 120 feet in length, the east wing 80 feet, and the west wing 56 feet. It contains a lecture room for natural philosophy, chemical and physical laboratories, biological laboratory and museum, drawing rooms, sewing room, cooking room, rooms for a complete course of woodwork, iron work, etc., and a fully equipped business school. This is an imposing building.

Model School and School of Practice

A building, 123 feet by 61 feet, used exclusively as a Model School and School of Practice, was completed in July, 1901, and first used in the fall of that year. This building was especially planned for the purpose, and is in all respects the most commodious and most convenient Model School building in the State or the nation. It is located east of the turnpike, opposite the administration building. It contains 20 recitation rooms, besides a large assembly hall, general office, library, two rooms for exercising, manual training room, chemical and physical laboratory, room for kindergarten, etc. It is the handsomest structure of the kind in the Commonwealth, with the most modern system of heating, ventilating, lighting, sanitation, etc.

All these buildings are connected by wide walks and are within easy access.

Household Department

A large and handsome building has been erected for household purposes. It contains carpenter and machine shops, engine rooms, a bakery of the most approved type, laundry rooms, store rooms, lodging rooms for hired help, etc. This much needed building enables the household department to be completely equipped for its important work.

Infirmary

A new, comfortable, two-story building, with steam heat, bath, rooms, hot and cold water, cemented basement, with cooking equipment and laundry appliances, proper sewerage connections, etc., has been fitted up, following the suggestions of the county medical inspector and representative of the State Board of Health in Lancaster County. The building is a double building, the two sides being entirely separate, one part for ladies, and one for gentlemen. It is properly isolated and conveniently located, and is connected with the different buildings by telephone. This building takes the place of a cottage purchased many years ago by the school for the purpose of an infirmary, and never used for that purpose, as we had no occasion to use it.

Other Buildings

Other buildings belonging to the "plant" are a transformer house, with an electric light shop, a large refrigerating plant, a large barn, a carriage house, a grand stand on the athletic field, a boiler house (containing four new 150 horse power boilers), and coal house attached, etc.

All the leading buildings are connected by an inter-communicating telephone system, with thirty telephone stations, affording instant communication between different parts of the main buildings forming the "plant" of the school.

Grounds

The buildings are surrounded with grounds to the extent of about twenty acres, part of which is covered with forest trees, shrubbery and flower beds, and part is carefully laid out and used for tennis, base ball, foot ball and other outdoor games. A grandstand has been erected on the base ball grounds, the basement of which is used for storing bicycles. A soldiers' monument, erected by the students soon after the Civil War, stands on the campus in front of the administration building, and two beautiful fountains ornament the ground in front of the ladies' building. Plans for the beautifying of our campus were prepared some time ago by a leading landscape architect, and have been carried into effect, making the large campus the most beautiful park connected with any educational institution in the State. A beautiful lake for skating and boating and containing myriads of gold fish forms part of the plans. The grounds have been graded, walks have been laid out and hundreds of trees and shrubs have been planted, which enhance the beauty of the place.

A never-failing supply of remarkably good water is found on our grounds. It flows upwards, like an artesian well, through the rocks, which form the bottom of a large reservoir, from which it is automatically pumped into a standpipe eighty feet high, with a capacity of 50,000 gallons, and thence distributed throughout all our buildings and different parts of the campus. Our system of sewerage is piped underground to the Conestoga river a mile away, with a fall of, at least, 100 feet. Our water supply and sewage system are not connected with any other buildings.

Location

Millersville is a pleasant village, situated four miles southwest of Lancaster city, in the richest agricultural county in the United States, and one of the most beautiful and healthful. A turnpike and an electric railway connect the two places. Electric cars leave the Philadelphia and Reading Railroad station and the Pennsylvania Railroad station at Lancaster every half hour during the morning and evening, and every hour during the middle of the day, connecting with all trains on both these railroads.

The location of the School is especially favorable to moral culture. It is near enough to Lancaster to enjoy the benefits of proximity to a large city, and yet not so near as to expose its students to the numerous temptations to vice common to cities and large towns. There are six churches of different denominations in the village, which students may attend. There are no saloons, two country inns and no factories. Millersville is a village of homes. It is an ideal location for a school of this kind.

The buildings are regarded as among the most comfortable, as well as the most commodious, Normal School buildings in the country. The recitation rooms being on an upper floor and the dining room on the lower floor, stair climbing is reduced to a minimum, and is equally distributed among the occupants of the different halls.

The improvements made in the last few years cost about \$500,000. They will be followed by others, whenever and whatever needed, the authorities of the school being determined to do all that can be done to promote the ends for which it was established, and add to the comfort and convenience of all connected with it.

New toilet accommodations, of the latest and most approved style, have been erected in both buildings. They were completed at the opening of the fall term, 1907, and connected with the main corridors, and are fully supplied with bathing arrangements, with hot and cold water at all times.

The buildings have been rewired and are lighted by electricity. The wires all run in steel conduits. Electricity was "turned on" in the gentlemen's building in the spring of 1908 and in the ladies' building in the fall of the same year, and is now used in each student's room and elsewhere.

Plans for heating all the buildings from a central steam plant have been adopted, four new 150-horse-power boilers, with approved "stokers," have been installed, and the greater part of the buildings are heated from this central system, and by the opening of the fall term of 1911, the entire "plant" will be heated in this way.

Government

THE method of government of the institution is based upon the sense of duty and the power of self-control. More reliance is based upon the principles of self-government than on positive rules and penalties.

It is assumed that each student who enters the school understands and agrees to obey all its regulations, and is disposed to do right and submit cheerfully to the wholesome restraints that are found necessary in a well-regulated institution of this kind; and trust is placed in his sense of honor and propriety until it is seen that he is unworthy of confidence. Students may at any time be dismissed, or required to withdraw from school, for any cause deemed by the Principal or Faculty prejudicial to its best interests. Parents or guardians are earnestly requested not to send us persons who have contracted bad habits, or who are insubordinate, indifferent to the rights of others, or mentally or morally defective, as the safety of others will demand their dismissal.

If students are not making progress in their studies through indolence or negligence, or for any other reason, their parents or guardians will be informed of the fact. If this does not secure attention to studies, a request will be made for their withdrawal, or they will be removed by the authorities of the school.

Reports of the attendance and progress of students will be prepared as soon after the close of winter and spring terms as possible, and given to them or sent to their parents or guardians.

Regulations for Students

The following regulations have been adopted after careful consideration as to what would promote the good of the institution and of those connected with it. It is hoped that they will commend themselves to the good sense of every student and be obeyed because they are reasonable and right.

Other regulations will be announced to students at the opening of each term and at other times if needed.

1. Buildings and Rooms

1. Rooms may be engaged by writing to the Principal. All students are required to room in the school building or in private houses designated by the school. No one is permitted to room or board out of the school buildings until all the rooms are occupied, except for special reasons, and by previous permission of the Principal; and all bills for rooms and boarding must be paid to the Principal or Business Manager, who settles with the boarding-house keepers. An exception to this method of payment will be made only in the case of students rooming and boarding with near relatives. Rooms are supplied with furniture, and will be ready for occupancy on the first Tuesday of the session. Students who enter school before the opening day will be charged \$1.00 a day. Rooms should be vacated not later than the day following the close of school. All keys must be returned at the close of the Winter and Spring terms. (See p. 52.)

2. Rooms engaged and not occupied by the first evening of the term may be forfeited. Rooms will be assigned to new students in the order of their application and entrance as far as practicable. Forfeited rooms will be held if not selected by the students at school. *Rooms will be held one week (or more by special arrangement) for students who make the advance payment on or before the opening of the term.* Students may be required to change their rooms at any time or to board in the village if deemed necessary by the authorities of the school. If the health or disposition of students makes it inadvisable for other students to room with them, they will be charged extra for the room or room in the village. Rooms may be engaged one year in advance of time of entrance.

3. Loud talking, whistling, scuffling, etc., in the building are prohibited.

4. The use of tobacco is prohibited in the buildings or on the grounds.

5. Each student will be held accountable for damage done to his room or its furniture, or for any property of the institution injured by him.

6. No water, dirt, or other material shall be thrown from the porticoes or windows.

7. Students shall not visit one another's rooms during the regular hours of study, except by the permission of the teacher in charge. No change of rooms must take place without permission of the Principal or the person in charge of the assignment of rooms, and no furniture or other articles belonging to the school must be taken from a room. When rooms are not occupied, they must be kept locked. Students are not permitted to keep sums of money in their rooms. The school will not be responsible for any money of students which may be left in their rooms. It should be deposited in the money office, and a certificate of deposit will be given to the depositor, and in that case the school makes itself responsible. (See page 53.)

8. Students furnish their own towels, soap and napkins and must have all articles of clothing plainly and indelibly marked with the full name.

Each student is entitled to have fifteen pieces, named on the laundry list, washed a week without extra charge. He will be charged for additional pieces. No substitutions will be allowed. Bedding is furnished by the school.

9. Students must have their rooms put in good order and ready for inspection by the steward or housekeeper before 9 a. m. No nails must be driven into the walls or ceilings, or alterations made in the windows, doors or any appendages of the rooms, without the permission of the steward or housekeeper. It is the steward's duty to visit each room in the gentlemen's building at least once a week to inspect it. If damaged or neglected, it will be put in good condition at the expense of the occupant. The ladies' rooms will be visited regularly by the housekeeper or matron.

10. On the evenings devoted to study the students must repair to their rooms at the ringing of the proper bell, and must not leave them without permission. Upon the ringing of the "second retiring bell," students are expected to be in their rooms, and all lights must be extinguished and all noise must cease. Prolonged absence from the gentlemen's building after the second retiring bell is prohibited. The ladies' building is locked at dusk.

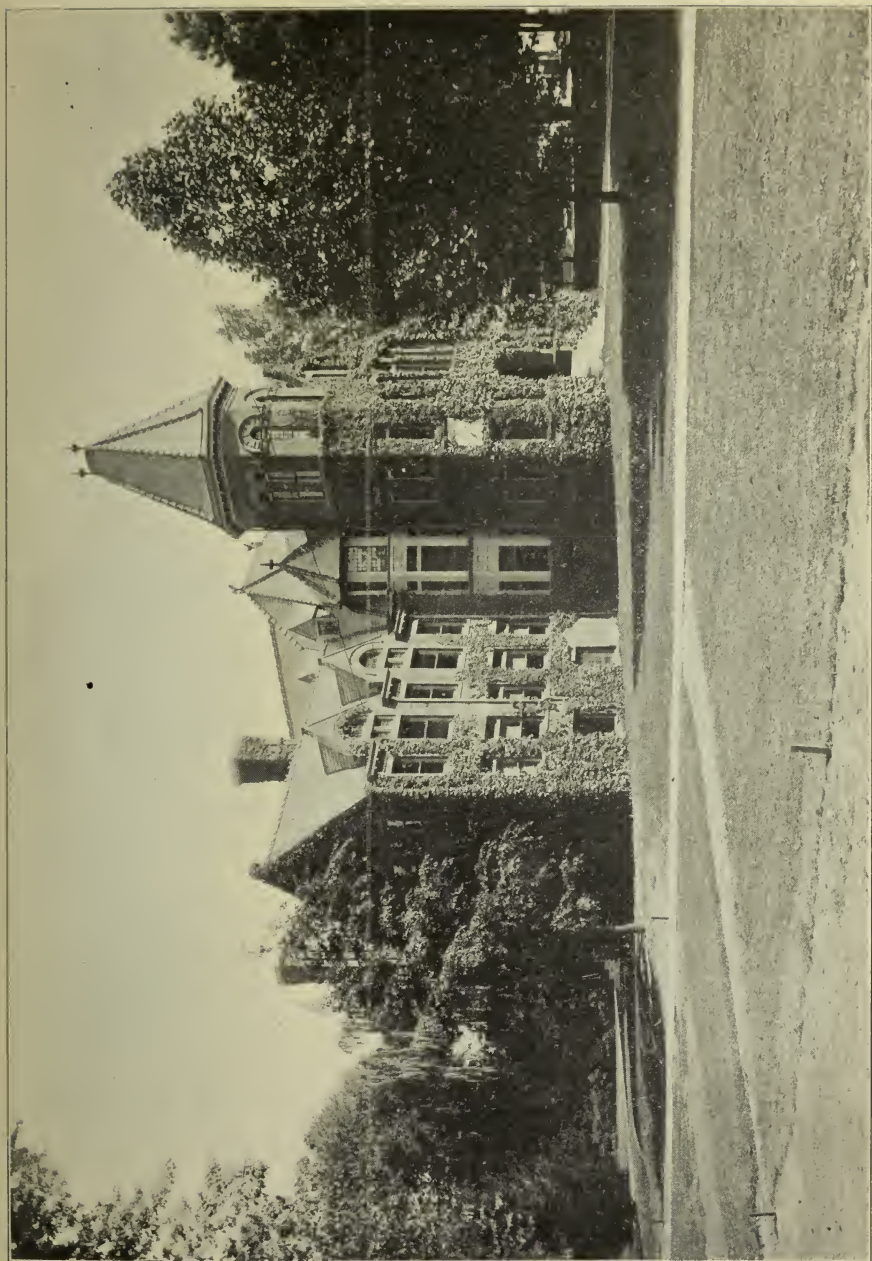

2. School Duties

1. A student's first duty is to report to the Principal's office for enrollment. Every student shall be present at the daily opening and closing exercises of the school, and at all general exercises in the chapel, unless excused.

2. Students will be assisted in selecting their studies and arranging their programmes *by a member of the Faculty appointed for this purpose*. They must not change their programmes without permission. They must enter their classes without delay and shall be regular and punctual in attending them, as no school duty can be omitted or neglected without loss. Permission to be absent from a recitation will be granted only when necessary, and should always be obtained before the absence occurs. When students go home on Friday evening or Saturday morning, parents are urged to see that they return to school on Sunday evening or Monday morning before recitations begin. Students should be at school at the opening of the term, at the hour named in the Calendar (p. 3). Except for special reasons, students who remain at school till the end of the term will not be excused from any school duty before the hour named in the Calendar (p. 3).

3. Students absent from their classes shall present a written excuse to the teacher of the class, signed by the Principal, or the person designated by him, or in case of sickness in the building by the teacher in charge of the hall in which they room.

4. Students desiring to withdraw from school permanently during the term must obtain permission from the Principal to do so. They are subject to the rules of the school until such permission is granted and they

THE LIBRARY.

have left school. Unless for urgent reasons, they will be required to remain at school till Friday or Saturday. Parents or guardians who desire to have students withdraw from school should notify the Principal. Parents and guardians are expected to direct the actions of students during vacations. Previous permission must be obtained if students desire to remain at school during the Spring vacation. No students will remain at school during the summer vacation.

5. Students are required to take regular exercise in the gymnasium under a trained instructor (unless properly excused), and for this purpose they are expected to provide themselves with suitable clothing, including shoes.

Ladies should bring a proper gymnasium suit, preferably black serge, consisting of bloomers and waist, the latter having a square cut neck and three-quarters or elbow sleeves.

Suits may be purchased here at a cost not exceeding five dollars. Shoes may also be obtained at the school. Rubber soled shoes are not advisable for general gymnastic work.

Physicians will please remember that the regular exercises in the gymnasium are not severe, are carefully selected and are given under the personal direction of trained instructors. Students usually derive great benefit from them, and should not be advised by physicians to be excused from them except for physical disability. Harm has sometimes been done by excusing students through ignorance of what the exercises in a well-appointed gymnasium are. All requests to be excused should be made according to a form which has been adopted by the school and which will be furnished upon application. Excuses must be signed by the physical instructor, and are subject to the approval of a resident physician. Students excused from the exercises in the gymnasium must study a text-book or manual in class under the guidance of instructors in order to become theoretically acquainted with the exercises now required to be taught in many schools. All athletic games and contests and all public exercises are under the general control of a committee of the Faculty. No student can take part in any public game or contest whose conduct or standing in class is not satisfactory. Students must obtain permission to take part in public entertainments not connected with the school.

6. Students must have a sufficient number of studies to keep them properly occupied, but not more than they can study with profit. They will prepare their lessons in their rooms or in the study hall.

7. Each student of music on the piano or organ will have regular hours assigned for practice, during which time no one shall be present to interrupt the exercises or divert the attention. Boarding students who study music only must take at least four lessons weekly and six practice periods daily.

8. All students are expected to be regular and prompt in assembling for meals; all shall conduct themselves in a becoming manner, and no one

should leave the dining-room before the signal of dismissal, without good reason and permission of a teacher.

9. Any student sick and requiring attention should have his condition reported to the proper authorities, when he will be waited upon in his room.

10. Students are absolutely prohibited from playing cards, using profane or vulgar language, drinking alcoholic liquors of any kind as a beverage, entering places where alcoholic liquor is sold, forming or belonging to a secret school organization, school club, or school "fraternity," mentioning in a public exercise the name of any one connected with the school or casing any reflections upon students, teachers or classes in a public meeting, or by a written or printed publication, or having alcoholic liquors, fire-arms, parlor matches, playing cards or objectionable books, papers, or other articles in their possession, during their connection with the school.

3 Relation of the Sexes

1. It is expected that the ladies and gentlemen of the institution will treat one another with politeness, and in accordances with the usages of good society.

2. No prolonged conversation between the sexes should take place in the buildings or upon the grounds, except in the performance of school duties or by permission; and no conversation between them will be permitted in the confectioneries or elsewhere. Students may be prohibited from going to places where they meet students of the opposite sex.

3. Neither sex will trespass upon the portion of the building or grounds assigned to the other sex. Lady students attending athletic games must not meet or hold conversation with gentlemen at the game.

4. At the close of the evening lecture or society meetings all will withdraw immediately from the chapel.

5. No student shall walk or ride with anyone of the opposite sex, except in cases of necessity, and then only by previous permission.

6. A gentleman student having a sister or cousin in this institution may visit her in the reception room.

7. A gentleman student cannot visit a lady student not a relative, except by permission. Gentlemen, not students, desiring to visit lady students must obtain permission from the Principal.

8. Ladies will not be permitted to have gentlemen not relatives visit them except for special reasons.

9. Ladies will meet brothers and other gentlemen who visit them in the reception room. Gentlemen will meet sisters and other ladies who visit them in the reception room.

10. Except for special reasons, no visiting will be permitted on the Sabbath or in the evening.

NOTES.—I. Permission to receive visitors should be obtained before the visitors come to the school. Prolonged visits always interfere seriously

with the progress of a student in his studies, and should not be made except for urgent reasons and by previous arrangements for boarding, etc. Visits to students by any one during the school hours of the day or evening seriously interfere with their work, and should not be made unless necessary. The best time to visit students is Saturday afternoon.. Young persons visiting students will be expected to conform to the regulations of the school. Children under twelve years of age will not visit students except by previous permission and for special reasons. As a rule, the regulations are not suspended during vacation.

2. *Persons who have been exposed to contagious or infectious diseases must not enter the school either as students or as visitors.*

3. Day students are subject to the rules of the school while attending the meetings of the literary societies and other exercises of the school.

4. The right to require students to testify with respect to the violations of school rules is in accordance with the practice of courts of justice, and is a right which the school maintains.

Business of the School

Admission of Students

STUDENTS will be admitted to the school at any time, and charged only for the number of weeks they are in attendance. *In order to make the best progress in their studies, they should enter at the beginning of the term and remain until the close.* Classes will begin their recitations on the first morning after the opening day of the term.

When students enter school they will be assigned to the class in which their qualifications entitle them to be placed.

Persons desiring to become students should inform the Principal. Rooms may be engaged one year in advance of the time of entrance.

Students who have taught school are requested to bring their teachers' certificates with them.

If it is found necessary in the future to place a limit upon the number of students admitted by this school, preference will be given to students over seventeen who desire to prepare to teach in the public schools of the State.

The School Year

The school year consists of forty weeks, and is divided into three terms. The Fall Term of 1911 will begin on Tuesday, September 5, and continue thirteen weeks. The Winter Term of 1911-1912 will begin Monday, December 4, and continue thirteen weeks. The Spring Term of 1912 will begin Tuesday, March 26, and continue fourteen weeks. There will be a vacation of one week during the Christmas holidays, and two weeks between the Winter and Spring terms. (See Calendar, p. 3.)

Charges

Boarding students are charged \$70 for the fall term, \$70 for the winter term, and \$72 for the spring term, plus an enrollment fee of \$5 for the fall and winter terms and an enrollment fee of \$5 for the spring term, or \$220 a year, including the enrollment fees. Day students are charged \$1.50 a week, plus the enrollment fees stated above. From these charges the State appropriation of \$1.50 a week, or \$60 a year, is deducted, thus reducing the cost to students over seventeen preparing to teach to \$160 a year, for boarding students and \$10 a year for day students. For part of a term, the cost to

boarding students is \$5.50 a week, plus the enrollment fees, or \$4.00 a week, plus the enrollment fees, if they are preparing to teach.

The foregoing charges do not include the cost of books and stationery.

Table Charges for Tuition and Boarding.

	Fall Term 13 Weeks.	Winter Term 13 Weeks.	Fall and Winter Terms.	Spring Term 14 Weeks.	Winter and Spring Term.	Entire Year.	Part of Term Per Week exc. En- rollment Fees.
Tuition (including enrollment fees), school privileges, etc. . . .	\$24 50	\$24 50	\$44 00	\$26 00	\$50 50	\$70 00	\$1 50
Tuition (including enrollment fees), boarding, lodging, etc. . .	75 00	75 00	145 00	77 00	152 00	220 00	5 50
State Aid deducted from cost of tuition (see page 50)	19 50	19 50	39 00	21 00	40 50	60 00	1 50
Charging for boarding, etc., after deducting State aid	55 50	55 50	106 00	56 00	111 50	160 00	4 00
Charges for day students (after deducting State aid), enrollment fees	5 00	5 00	5 00	5 00	10 00	10 00	

For time of payments, see pp. 48 and 49. For deductions, see p. 49.

Charges for Music, Typewriting, Etc.

	Fall Term, 13 Weeks.	Winter Term, 13 Weeks.	Fall and Winter Terms.	Spring Term, 14 Weeks.	Winter and Spring Terms.	Entire Year.	Part of Term, Per Week.
Instrumental music and voice culture (2 lessons weekly, 2 practice periods daily . . .	\$15 00	\$15 00	\$30 00	\$15 00	\$30 00	\$45 00	\$1 25
One lesson weekly, one practice period daily	7 50	7 50	15 00	7 50	15 00	22 50	65

Dinner, five school days	13 00	13 00	26 00	14 00	27 00	40 00	1 00

Tuition in regular classes to special students in music, stenography, etc., one class, 60c. weekly; two classes, \$1.10; three classes, \$1.30; four or more classes, \$1.50; stenography and type-writing and three English branches, \$1.50; double entry book-keeping and three English branches, \$1.50.

Students desiring to occupy single rooms may arrange to do so, when the building is not full, for 75c. a week additional charge.

There is no extra charge for vocal music, penmanship, elocution, single-entry bookkeeping, Latin, Greek, French or German, taken in regular classes.

The enrollment fee must always be paid when the student enters school, in order to secure enrollment. It will not be refunded for any reason.

Boarding to students during winter and spring vacations and transient boarding, \$5.00 a week, or \$1.00 a day.

No persons are taken as boarders during the summer vacation.

The bills for stationery and books range from \$2.00 to \$6.00 a year, depending upon the number and kinds of studies a student pursues and the care he exercises in making his purchases.

The extra expenses of students are very small, consequently they do not need a large amount of spending money. Arrangements are made by which students may deposit money with the treasurer, and draw it at such times and in such sums as they desire.

Payments

Payments for the term for which students enter school are to be made when they enroll as students. In other words, *payments for each term are to be made in advance*, at the beginning of the term.

See Table of Expenses, p. 46.

Advance payments for boarding students preparing to teach: First term, \$55.50; second term, \$50.50; third term, \$54 (spring term only, \$56). Day students preparing to teach pay the enrollment fees in advance.

Checks, bank drafts and post-office orders may be used in the payment of bills. They should be drawn payable to the Principal or Business Manager.

If other times of payment are desired, previous arrangements must be made with the Principal or Business Manager, and in case persons are unknown, satisfactory references must be given. But no students can be admitted without a payment on account.

Payments for music, stenography, etc., one-half in advance, the remainder at the middle of the term.

The bills for books, stationery, etc., should be settled before the close of the school term.

All bills must be paid or satisfactory arrangements must be made for their payment before students are recommended to the State Board of Examiners for "final" examination or for their second diplomas.

Deductions

A deduction of one dollar and fifty cents a week is made to students over seventeen preparing to teach (see Appropriation to Students, p. 49). This deduction makes the *tuition in this institution free to all students over seventeen preparing to teach in the public schools of the Commonwealth.* (See note on p. 50 with reference to Deficiency in State Aid.)

A deduction of one dollar a week will be made to boarding students who go home regularly on Friday evening before supper and return on Monday morning after breakfast, and whose laundry work is done at home. (No deduction will be made if this rule is not fully complied with.)

No deduction is made for sickness in school, but for absence from school two consecutive weeks or more at one time on account of sickness or any other reason satisfactory to the Principal, a deduction is made of \$2.75 a week from the charge of boarding. Money paid in advance will be refunded to parents or guardians if students leave school for any reason satisfactory to the Principal. No part of the enrollment fee, however, will be refunded. No deduction is made to students entering within the first two weeks, or leaving within the last two weeks, of the term. No deduction is made for part of a week.

Settlement of Accounts

All bills must be settled with the Principal or Business Manager, who acts in behalf of the Trustees. A student's account for one term must be settled before he enters for another term, unless by special arrangements made with the Principal or Business Manager.

There are no EXTRA CHARGES except for the EXTRA BRANCHES named above, hence our charges are lower in reality than those of many similar institutions.

Appropriations to Students

The following appropriation is made by the State to students preparing to teach in the public schools:

Each student over seventeen years of age who shall sign an agreement binding said student to teach in the common schools of the State two annual school terms, shall receive the sum of ONE DOLLAR AND FIFTY CENTS A WEEK in full payment for the expenses of tuition of said student, provided that each student in a State Normal School drawing an allowance from the State must receive regular instruction in the science and art of teaching in a special class devoted to that object for the whole time for which such an allowance is drawn.

In case of a deficiency in the State aid to students, each student in the different State Normal Schools will receive his proportionate share of the appropriation, as determined by the State department. This rule must be enforced by all the State Normal Schools.

Alumni Loan Fund

The Alumni and other friends of the school have established a fund, which is lent to deserving students without interest to enable them to complete their studies at this school. The fund amounts to nearly \$1,500, and its benefits have to this time been confined of necessity to members of the upper classes. Contributions to the fund will be thankfully received. Address Prof. J. W. Lansinger, Millersville, Pa., treasurer of the fund.

Scholarships

A free scholarship has been established by the students of the school during the administration of Prof. James P. Wickersham as Principal. It is designed to honor the memory of this distinguished educator, and is entitled the Wickersham Memorial Scholarship. It is awarded at the close of each school year by the Faculty and State Board of Examiners to a student who has completed the "Final" examination for entrance to the Senior Class, and includes free tuition and boarding and the use of text-books rent free for the Senior year. The basis of selection is scholarship and moral character.

A VIEW OF EAST LAKE.

The sum of \$1,000 has been subscribed by the Class of 1898, the interest of which is used annually in assisting to pay the expenses of a meritorious student. This scholarship is awarded at the close of each school year.

Prizes for Scholarships

The following prizes will be donated by the Board of Trustees to students who will complete the Regular Course at this institution. They will be awarded on the basis of scholarship and deportment, and will be due and payable after graduation. The amount of the prize will be deducted from the student's bill after graduation, or paid to him in cash if his bill is settled.

For General Scholarship

(To candidates for the Middle Class who have attended this school at least two terms.)

1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars.

(To candidates for the Senior Class who have attended this school during the Middle year.)

1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. Open to all students except those to whom the scholarships are awarded.

(To members of the Senior Class.)

1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. Open to all students except the holders of the scholarships.

For Practice Teaching in Model School

1st. Twenty dollars. 2d. Fifteen dollars. 3d. Ten dollars. 4th. Five dollars. Open to all Seniors except the holder of the Wickersham scholarships.

When two contestants entitled to prizes have equal rank, the prizes will be divided equally between them. When a student's standing entitles him to two prizes (including scholarships), the higher prize will be awarded to him.

The foregoing prizes are intended to encourage students to graduate, and consequently are awarded only upon the condition that the students selected to receive them complete the Regular Course in this institution. For this reason they do not become due until after graduation, nor are they payable to any one who does not graduate at this school.

Prize for Composition and Public Speaking

Hon. John H. Landis prize. Ten dollars in gold awarded to the best debater or debaters. Open to all students.

Principal's prize, for oratory. The interest of \$250. Open to all students.

Class of '95 prize, for oratory. The interest of \$100. Open to members of the Junior and Middle Classes.

Text-Books

Text-books are sold to students below Philadelphia retail prices. Students desiring to rent their books can do so by paying *one cent a week* for each book costing *sixty cents* or less, and *two cents a week* for each book more than *sixty cents*, when returned uninjured; if returned otherwise, the full price of the book will be charged. The text-books now in use are the following:

Pedagogics.—Halleck's and Brook's Psychology and Methods of Teaching; James's Psychology; Parker's How to Teach Geography; Dutton's School Management; Kemp's History of Education; Harris's, Rosenkranz's and Horne's Philosophy of Education; Froebel's Education of Man; Fitch's Lectures on Teaching; Quick's Educational Reformers; Haven's Moral Science; Atwater's Logic.

Language.—Westlake's Orthography; Rice's Rational Spelling Book; Swinton's, Hillard's, Harper's and Appleton's Readers; Southwick's Steps to Oratory; Lyte's Language Series; Lyte's Grammar and Composition; A. S. Hill's Rhetoric; Westlake's Common School Literature; McNeill and Lynch's Introductory Lessons in English Literature; Heydrick's English and American Literature; ——— English Classics; Heydrick's How to Study Literature; Pearson's Essentials of Latin; Pearson's Greek Prose Composition; Harkness's Latin Grammar; Lowe and Ewing's Cæsar; Allen and Greenough's Cicero and Virgil; Goodwin's Greek Grammar; Boise's Greek Lessons; Boise's Xenophon's Anabasis; Guerber's *Marchen und Erzählungen*; Joynes-Meissner's German Grammar; Whitney's German Texts; Chardenal's French Grammar; Student's Series of Classic French Plays.

Mathematics.—Hull's and Brooks' Mental and Written Arithmetics; Beaman and Smith's Higher Arithmetic; Hull's Complete Algebra; Olney's Higher Algebra; Hull's Complete Geometry; Davis's Surveying; Wells' Trigonometry; Wood's Elements of Co-ordinate Geometry; Peck's Analytical Mathematics; Taylor's Calculus.

Natural Science.—Davison's Physiology; Hoadley's Elements of Physics; Leavitt's Botany; Peck's Astronomy and Mechanics; Comstock's Astronomy; Brownell's Chemistry; Olmstead's Natural Philosophy; Blackmelder and Barrows' Geologies; Jordon's Animal Life.

Historical Sciences.—Roddy's Political Geography; Dryer's Physical Geography; McLaughlin's and Barnes's Histories of the United States;

Myer's General History; Wrong's History of the British Nation; Maltby's American Citizen; Shimmel's Pennsylvania Citizen.

The Arts.—Lyte's Practical Bookkeeping; Lyte's School Bell; Root's First Years in Song Land; Natural, Tuft and Holt's and Mason's Music Courses; ——— Form Study and Drawing; ——— Penmanship.

It is suggested that students bring their text-books with them to school. If not used in the classes, they will be convenient for reference.

Applications for Teachers

Many directors of schools and principals of academies and seminaries apply to us for teachers. We are always pleased to answer such requests by furnishing good teachers, but we are better able to do so near the close of each school year than at any other time. While the school aids its graduates to secure positions, it makes no promises to do so. No good school does. At the same time, it may be said that for several years we have been unable to supply the demand made upon us for graduates to fill positions in all grades of schools. Persons desiring to secure our graduates should, therefore, write at an early day. Great care is exercised by the Principal in recommending graduates for positions.

It must not be supposed that all persons who attend our school for one or more terms are good teachers. The graduates of the school are almost invariably successful instructors and disciplinarians.

Pennsylvania Normal Schools differ in the thoroughness of the work done, their professional courses, the opportunities offered for the training of teachers, their "model schools," on schools of practice, hence persons desiring to employ Normal School Graduates should make special inquiries concerning the preparation which they have here.

Applications to the Principal to recommend students for any employment must state the nature of the employment definitely, in order to secure attention.

Persons desiring to employ students as agents should make application to the Principal. Permission cannot be granted to any one to visit students in their rooms for the purpose of employing or instructing them as agents. Permission cannot be granted to anyone to sell articles, either by samples or otherwise, in the buildings or on the grounds.

Mail, Telegraph, Etc.

The school has four mails daily. Mail matter should be addressed: *Millersville, Lancaster Co., Pa.* The words *State Normal School* on the envelope of a letter or package will facilitate its delivery.

Write the name of the post-office, *Millersville*, plainly. Mail matter frequently fails to arrive promptly because it is directed to Millersburg or Millerstown or Minersville, instead of *Millersville*.

All telegrams addressed: *State Normal School, Millersville, Pa.*, will be sent to the school free by telephone from Lancaster.

Both telegraph companies—the Western Union and the Postal—have printed directions to this effect in their books of instruction to agents.

The school is connected by telephone with nearly all parts of Eastern and Central Pennsylvania.

Express packages should be prepaid and should be addressed: *Millersville State Normal School, Lancaster, Pa.*

Arrangements for Trunks

Trunks are to be brought from baggage room and taken to baggage room at Pennsylvania and Reading railway stations by the Traction Company. Students will hand railroad checks for trunks to the *street car conductor on Millersville car*, with payment for same, when they come to school. On leaving school at close of term, they will purchase street car checks from the street car agent at the school. On other days they will pay Millersville street car conductors. Trunks will be properly labeled by students. Labels are obtained in the book room of the school.

Charge for Trunks

On opening and closing days, P. R. R.	15c.
On opening and closing days, Reading R. R.	20c.
On other days, P. R. R.	25c.
On other days, Reading R. R.	40c.

By following the foregoing directions, students will have no trouble with their luggage, which is brought from the railroad station by the trolley car employes when a student comes to school, and taken to the station by the same parties when she leaves school. In more than twenty years, not a single trunk or piece of baggage has been lost. On leaving school, students must see to the checking of their baggage at the railroad station.

Catalogue of Students.
